REASONS FOR ALLOWANCE

Claims 25-32 and 36-43 are allowed.

1. The following is an examiner's statement of reasons for allowance: Prior art fails to teach or fairly suggest a method of passing a fluid through a manifold of a microchannel device flowing a first fluid stream into a manifold and then through a first channel in a first direction. Then, flowing a portion of the first fluid stream to a second channel and flowing a portion of the first fluid stream through the second channel. The second channel extends at a nonzero angle relative to the first direction. Additionally, the second channel comprises a microchannel and comprises at least one dividing wall that separates the second channel into at least a first and a second subchannel. The first layer and the manifold are each substantially planar. Further, the manifold is substantially contained within the first layer, and the first layer and the manifold are substantially coplanar. The first channel is disposed in the first layer and flow through the first channel is substantially parallel to the plane of the first layer. The first channel and the manifold are about the same height. The second layer is substantially planar and the second channel is disposed in the second layer and flow through the second channel is substantially parallel to the plane of the second layer. The first layer and the second layer are substantially parallel and the nonzero angle refers to an angle within the second layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
